

EPPS SMART ERP OFFERINGS

EPPS SMART ERP is an enterprise level ERP solution for small, medium & large organizations. Easy to implement and even easier to use, EPPS SMART ERP is the smart choice of the new age businesses.

EPPS SMART ERP is intuitive, intelligent and agile and lets you take informed business decisions whenever and wherever.

THE EPPS SMART EDGE

SMART Technology

- ✓ Future Proof
- ✓ Open Source (JAVA and PostgreSQL)
- ✓ API Framework (Connected Ecosystems)
- ✓ Scalable Technology
- ✓ Manage high volumes of data
- ✓ Platform Agnostic browser based
- ✓ Product releases per annum with customer requested and industry specific changes

SMART Experience

- ✓ Easy to use
- ✓ Intuitive user experience
- ✓ Configurable
- ✓ Scalable
- ✓ Seamless Mobility
- ✓ Prompt regional support
- ✓ Minimal training time

SMART TCO

- ✓ No third-party licensing
- ✓ Concurrent user policy
- ✓ One year free support, after Go-Live
- ✓ Minimum cloud hosting charges
- ✓ Available On-Cloud/ SAAS/On-Premise

Finance & Accounting Management System

GST Compliant

1. Configurable Chart Of Accounts (General Ledgers)
2. Configurable P&L Statement/Balance Sheet
3. Balance Sheet And P&L - Schedule III, T-Format
4. Consolidated Trial Balance With Multi Location/Branches
5. Consolidated Balance Sheet And P&L With Multi Division/Location
6. Drill Down Facility To Voucher In Balance Sheet, P&L
7. Debtors Management With Credit Control Approvals
8. Multi-Currency Support With Auto Exchange Gain/Loss
9. GST Compliant (Returns/RCM/2A Reco etc.)
10. Auto GST Calculations Across Modules Based On Customer, Supplier, Location & Item HSN Code
11. Finance Budgeting Control & Analysis
12. Cheque Management
13. Cash Discounting
14. Mapping Single Sub Ledger To Multiple GL Accounts
15. Mapping Single Sub Ledger to Multiple Customers, Suppliers
16. Single Bill Passing Against Multiple GRN
17. Bank Reconciliation (With Automation)
18. Auto TDS Calculation
19. TDS NOP-Party Wise Report, TDS Vs Expense Report
20. Accounts Receivable/Payable Management
21. Auto Narration Buildup Facility
22. Interest Calculation On Overdue Amount
23. Inter Branch Accounting Across Locations/Branches
24. Cost Centers
25. Cash Flow Forecast
26. Letter Of Credit Processing And Tracking
27. Collection Management
28. Control For Posting Back Dated Transactions
29. Debtor/Creditor Ageing Analysis With Drill Down To Invoice
30. Advance Management From/To Customers/Suppliers
31. Statutory Adjustment Voucher
32. Party Adjustment (Consolidate Multi Party Entries Into Single)
33. Creditor To Debtor Knockoff
34. Summarized Voucher Statistics With Drill Down To Voucher
35. Balance Confirmation Certificate
36. Basic Bank Management With Overdraft Controls
37. Daily Cash Limit Control With Analysis Reports
38. Cash Flow, Fund Flow Report
39. Negative Cash Balance Report
40. Financial Status Report
41. Transaction Reversals With Reason Codes
42. Fixed Asset Register
43. Cheque Printing Designer

44. Configurable Ratio Analysis Report
45. Working Capital Analysis
46. Payables/Receivables Reminders Notification *
47. Open Advance Knockoff In All Relevant Transactions

Material Management System

1. Purchase Order (PO) With Item Level Tolerance
2. Purchase Contracts (Rate/Volume)
3. PO Amendments And Short Close
4. PO With Delivery Schedules
5. Pricing Inclusive Of Taxes
6. Central Consolidated PO With Multiple "Ship To" Options
7. Imports-PO With Foreign Currency
8. Document Designer For PO Printing
9. Charges And Levies To Arrive At Landed Cost Of Goods
10. Post Receipt Adjustment Of Purchase Price
11. Supplier Advance Management (Link With PO)
12. Direct Goods Receipts (GRN) - Without PO
13. Goods Receipts (GRN) Against Delivery Challans
14. Multiple PO Into Single GRN
15. Purchase Returns With Debit Note Integration
16. Reason Codes To Analyze Purchase Returns
17. Budget Control In Procurement
18. Multiple UOM Support With UOM Classes
19. Inventory Reconciliation/Stock Verification
20. Stock Expiry Controls
21. Item Visibility Control Location Wise
22. Inventory Valuation Method (FIFO/Weighted Average/Specific Cost)
23. Material In Transit Tracking
24. Consolidate Multiple Indents Into Single PO
25. Bar Code/QR Code Label Printing Designers
26. Tracking Material At Vendor Location
27. Warehouse/Storage Location Rack/Bin Management
28. Quality Management
29. BOM MRP Module
30. Auto Indents From MRP Run/Re-Order Levels
31. Batch Ledger-Forward And Backward Traceability
32. Request For Quotations (RFQ)
33. Requisition And Issue Cycle
34. Consolidated Stock Visibility Across Locations/Branches/Warehouses
35. Manual And Auto Generated Item Codes Based On Logic
36. Returnable/Non Returnable Gate Pass
37. FSN/ABC Analysis
38. Purchase Quotation Capturing & Comparison
39. Bulk Item Creation/Modification
40. Lot Serial Tracking

Production & Quality Management System

Suitable For Make To Order And Make To Stock Scenario In Discrete Manufacturing Industry

1. Multi-Level BOM/Sub Assembly
2. BOM/Product Costing
3. BOM Upload From Excel
4. Material Requirement Planning (MRP)
5. WIP Management
6. Scrap Reporting
7. Quality Management/In Process Inspection
8. Subcontracting/Outsourcing Management
9. Jobwork/Insourcing Management
10. Production Cost Management (Material/ Manpower/Overheads)
11. Overall Equipment Efficiency (OEE)
12. Make To Order/Make To Stock Management
13. Production Plan/Orders
14. Work Orders/Job Cards With Priority Control
15. Issue To Production Against Work Orders
16. Material De-Reservation From Intermediate Work Orders
17. Production WIP Or FG Reporting
18. Downtime Reporting
19. Co-Product/By-Product Reporting
20. Item To Item Conversion
21. Production Activity Reporting
22. Hold And Release Work Orders
23. Product/Batchwise Profitability Reports
24. De-Kitting/Disassembly
25. Basic Tools And Dies Management
26. Capacity Utilization Of Tools And Dies
27. Catch Weight Reporting
28. Unplanned Subcontracting
29. Forecast Consumption
30. As Built BOM
31. Work Order Release/Replan/Shortclose/Amend

Subcontracting/Outsourcing Management System

1. Outsourcing Contracts/Subcontracting (SBCT)
2. Visibility Of Stock At Vendor Location
3. Vendor Bill Booking
4. Loading Cost Of Outsourcing To Product Costing
5. Auto Liability Creation At GRN From Vendor Contract
6. Compliance (GST, TDS) With ITC 04
7. Outsourcing Integrated With Production Module
8. Bulk Material Transfer To Vendor Location

Jobwork/Insourcing Management System

1. Jobwork/Insource Contracts
2. Insourced Stock Visibility
3. Labour Charges/Process Invoicing
4. Jobwork/Insource Integrated With Production
5. Jobwork/Insource Integrated With Outsourcing

Advance Planning System *

1. Monthly/Weekly/Daily Production Plans In A Few Minutes
2. Day-wise Machine Loading Charts For Optimal Resource Planning
3. Day-wise Tool Allocation Based On Available Tools
4. Alternate Routing Used Based On Availability Of Machines
5. Powerful Optimization Engine To Build Plans Within Resource, Tool & Material Constraints
6. Robust Algorithms To Minimize Number Of Machines/ Operators, Minimize Set Ups etc
7. Special Features For Die Casting/Molding Industry e.g. Cavity Based Throughput, Family Molds
8. Complete Insight Into Projected Stocks For Expediting Purchases

Sales & Distribution Management System

1. Export Order And Invoicing
2. Sales Order (SO) With Delivery Schedules
3. SO Status Tracking
4. SO Costing
5. Sales Enquiry & Quotation To Order Conversion
6. Pricing Inclusive Of Taxes
7. Sales Price List
8. Discount Matrix Engine With Multiple Dimensions *
9. Letter Of Credit
10. Rebates And Schemes Management *
11. Salesperson Wise Targets And Settlements *
12. Pro Forma Invoice
13. Sales Return With Reason Codes For Analysis
14. Dispatch Control With Barcodes/QR Codes *
15. Collection Management
16. Material Reservation/De-Reservation
17. Applying Other Charges Like Freight/Loading/Handling Etc.
18. FOC Item With/Without Taxes
19. Zero Value Invoice
20. Expiry Control In Sales And Sales Return
21. Mobile App For Sales Field Agents *
22. Manual Forecasting For Demand
23. Market Feed
24. Customer Associate/Sales Agent Management
25. Packing List With Bar/QR Coded Labels
26. Auto E-Way Bill (Third Party GSP) */ Manual
27. Delivery Challan With Multiple SO Consolidation
28. Sales Blanket Agreement/Contracts
29. Customer Advance Management (Link With SO)
30. Group Invoicing (Multiple SO Into Single Invoice)
31. Sales Comparison Report
32. Carton/Box Packing

Business Policy Management System

1. Organization Structure (Profile/Roles)
2. Profile/Role Wise Activity Control Program Access
3. Profile/Role Wise Data Access Control
4. Multi Divisions/Companies
5. Multi Locations/Branches Division/Company Wise
6. Multi Division Access Via Single Log-In

Administration Management System

1. Master Data Management
2. Audit Trail Logs
3. Email Notification Engine Event Based*
4. Email Notification Engine Schedule Based*
5. Web And Mobile Notification Configuration
6. Concurrent User Logged Visibility And Control
7. Document Designer With Inbuilt Templates
8. Electronic Approval Workflow (On Web And Mobile App)
9. Special Configurable Approval Workflows
10. Condition Based Approval Workflows

Human Resources Management System

1. Configurable Organization Structure
2. Employee Master Data
3. Claims And Reimbursements
4. Manual Salary Management
5. Printing Of Appointment Letter & Salary Slip

Mobile App (Android + iOS)

1. Enhanced Security With IMEI No. Access Control
2. Sales Order Booking And Tracking
3. Collection Management
4. Employee Claims Management
5. Approvals For Transactions
6. Stock Reports
7. Sales Analysis Reports
8. Debtors/Creditors Ageing
9. In App Bell, Push Notifications
10. Document/File Upload Against Transactions
11. Ledgers Query Report
12. MIS Reports
13. Physical Stock Count

CUSTOMER BENEFITS

1. Concurrent User Licensing
2. Centralized Data
3. Location Wise Data Access Control
4. Mobility (Android And iOS Support)
5. Approvals On Mobile
6. MIS On Mobile
7. Order Taking, Collection On Mobile
8. Multi Smart Device
(Desktop/Laptop/Notepad/Mobile)
9. Drill Down Reports
10. Web And Mobile Notification
11. Multisession Window
12. SMS Facility
13. Email Facility
14. Multi Currency Support
15. Multi Lingual Support
16. Auto Backup
17. Barcode/QR code Scan, Print, Design
18. Batch Control/Tracking For Stock Item
19. Browser Based Access (Multi Browser Compatible)
20. Concurrent User Access
21. Document/Image Upload For Masters And Transactions
22. Masters Import Through Templates
23. PO/SO/BOM Import Through Templates
24. Document Printing Designer (For Limited Transactions)
25. Quick Link And Tool Bar Search
26. Data Export Excel
27. Print Configurations
28. Audit Trail Logs
29. User Configurable Notification Engine
(Event/Schedule Based)
30. Increased Throughput
31. Improved Resource Utilization
32. Predictable Order Promising
33. Better On Time Delivery
34. Improved Top & Bottom Lines
